State Bank Reports First Quarter Financial Results; Core Trends Reflect Progress on Strategic Priorities

ATLANTA, April 30, 2012 - State Bank Financial Corporation (NASDAQ: STBZ) today announced unaudited financial results for the quarter ended March 31, 2012. Net income for the first quarter was \$5.1 million. Fully diluted earnings per share were \$.16 for the quarter.

"I am very pleased with the core operating trends for the quarter, as we had solid organic loan growth, improved deposit mix, lower cost of funding, better credit trends and lower noninterest expense. However, the income statement continues to reflect the inherent volatility related to loss share accounting. Specifically, net income was negatively impacted by a seven million dollar charge to reduce our FDIC indemnification asset as a direct result of lower expected losses in our loans covered by loss share agreements. Despite short-term earnings noise, I remain extremely satisfied with how we are executing on our strategic plan," said State Bank Chairman and CEO Joe Evans.

Total assets at quarter-end were \$2.68 billion, compared to \$2.78 billion at the end of the fourth quarter, primarily due to a decrease in the Federal Deposit Insurance Corporation (FDIC) receivable. Total net loans were \$1.48 billion, up \$35.3 million from the fourth quarter. Loans not covered by loss share agreements with the FDIC grew \$53.6 million in the first quarter of 2012. At \$754.6 million at March 31, 2012, noncovered loans comprised 48.8% of total gross loans.

Total deposits at quarter-end were \$2.19 billion, down from \$2.30 billion at the end of the fourth quarter. This decrease was the purposeful result of continued active management of higher cost interest-bearing deposits. Noninterest-bearing deposits grew by \$15.8 million, or 5.3%, in the first quarter. Cost of funds for the quarter was 52 basis points, an eight basis point improvement from the fourth quarter of 2011.

Tangible book value per share climbed to \$12.62 in the first quarter, up \$.36, or 2.9% from the fourth quarter. State Bank Financial Corporation remains well capitalized, finishing the quarter with a leverage ratio of 15.06% and Tier I risk-based capital ratio of 33.29%.

Net interest income was \$35.5 million in the first quarter of 2012, down from \$41.5 million in the fourth quarter of 2011 largely due to \$5.9 million less accretion income on covered loans. The lower accretion was driven by changing assumptions in our reforecasting of cash flows, specifically the lengthening of the accretion period, rather than negative credit migration trends.

Provision for loan losses on noncovered loans was \$1.5 million in the first quarter, down from \$2.9 million in the fourth quarter, the result of continued stable credit quality metrics in that portfolio. Provision for loan losses on covered loans was a negative \$1.3 million in the first quarter, down from \$16.8 million provided in the fourth quarter. This negative provision reflects improved covered loan performance.

Total noninterest income was a negative \$3.8 million in the first quarter compared to \$18.8 million of total noninterest income in the fourth quarter of 2011. This significant change was due to several factors. Total noninterest income in the fourth quarter included \$14.9 million in gains on acquisitions. Accretion of the indemnification asset was \$131,000 in the fourth quarter of 2011 compared to a negative \$7.0 million of amortization in the first quarter of 2012. While detrimental to near-term earnings, this change reflects a more positive view of covered loan asset quality, and therefore fewer claims planned to be made to the FDIC. The amortization of the indemnification asset is linked with increased accretion income on covered loans that are experiencing improving credit quality trends, and such amounts are expected to decline over time unless asset quality trends further improve.

Noninterest expense for the first quarter was \$23.2 million, down from \$27.2 million in the fourth quarter of 2011 largely due to lower incentive compensation expense, lower net other real estate owned costs and lower costs related to our two October 2011 FDIC-assisted acquisitions.
